New Dates for 2014 International Reflective Insulation Manufacturers Conference

The 2014 International Reflective Insulation Manufacturers (I-RIM) Conference was recently announced and was received with great enthusiasm. Many want to attend; however, the only issue was that the last day of the conference is a Saturday. We appreciate those that voiced their concern and we listened!

The dates for the 2014 I-RIM Conference are March 5-7 at the Crowne Plaza Excel Hotel in London. This moves it up one day earlier than previously announced. Please adjust your calendars accordingly and plan to attend.

About the Event:

The I-RIM Conference will begin March 5th with a registration/cocktail reception hosted by RIMA International from 6 – 8 p.m. This relaxed and inviting reception will be the perfect welcome for guests traveling in from around the world.

The next two days will be packed full of speakers, table top trade show exhibits, receptions and other events to make your conference experience well worth your time and investment. With our extensive list of industry experts from around the world at your access, this is an invaluable opportunity. Here are just a *few* of the presenters and topics you can expect:

- ★ Carol Houghton, CJHConsult Associates – “*Standardization in Europe*”
- ★ Dr. David Yarbrough, R&D Services, Inc. – “*Reflective Duct Insulation*”
- ★ Ray Williams, National Physical Laboratory – “*Hot Box Testing*”
- ★ Dr. Hamad Saber, NRC Construction – “*Computer Simulations of Enclosed Reflective Air Spaces*”
- ★ Professor Nico Hendricks, Kiwa BDA Expert Centre – “*Emissivity Testing*”
- ★ Dr. Mario Medina, University of Kansas – “*ASHRAE: Comparison on In-Situ Testing*”
- ★ Dr. George Kellie, Kellie Solutions Ltd. – “*Advancement of Reflective Technology and its Global Impact*”

These are just a sampling of the speakers currently confirmed for the event. Updates from various regions of the world will also be included as well as presentations on manufacturing techniques, new technologies, refurbishment, hybrid systems and much more.

The complete program schedule will be finalized and announced within the next few weeks. Conference registration rates will be available at that time as well. Please mark your calendar now for this special event; and I will keep you posted as more details become available.

(The Reflective Insulation Manufacturer's Association International is a group of dedicated people working together to propagate the knowledge and use of reflective insulations and radiant barriers. RIMA-I has been the major force in establishing fair ASTM standards for testing and installation procedures. RIMA-I welcomes all who are interested in promoting and directing the growth of the industry. For more information about membership or the industry, please contact Executive Director Mary Edmondson at 800/279-4123 or visit us on our website at www.rimainternational.org.)
