Saving Energy Today for a Better World Tomorrow

The Reflective Insulation Manufacturers Association International invites you to Attend the 2018 International Reflective Insulation Manufacturers Conference

May 9-10, 2018 ♦ Marriott Los Sueños Resort Hotel ♦ Puntarenas, Costa Rica

THE EVENT

We are excited to bring the I-RIM Conference to Central American for 2018; and we couldn't have picked a more spectacular venue. This conference combines the best in reflective technical education, research, code work, global updates/uses and more with all the best Costa Rica has to offer creating an amazing opportunity you can't afford to miss.

This technical conference is held every two years and is the only worldwide event serving the reflective insulation, radiant barrier and interior radiation control coatings (IRCCs) industries. Guests will meet and mingle with the most knowledgeable experts and professionals in the industry, and those contacts alone make attending a must. The key to your future business success can be found right here—at the 2018 I-RIM Conference event.

Advance Registration Discounts are available until **March 1st** so register early and make an investment in your future that is sure to pay back for years to come!

One of the things that makes the I-RIM Conference special is the opportunity to socialize and network with the top industry experts in the world. This intimate affair is quite exclusive offering those that attend an environment not only to learn from the best of the best but to rub elbows at social events throughout the conference. These contacts will prove invaluable for years to come.

ALL EYES ON YOU! - We have replaced the old been there/done that table top trade show idea with something new that puts you at the head of the class. **NEW** for 2018 is a special **SPONSOR OPPORTUNITY**.

There are seven (7) sponsor presentations slots scheduled throughout the conference program. Companies interested in sharing information about their company, product and/or services can reserve a spot and provide a ten minute presentation during the conference. Think of it as your own face-to-face infomercial!

There are only **SEVEN** slots available, so to take advantage of this new opportunity, reserve your space **TODAY!**

(NOTE: Only confirmed sponsors can provide literature to show guests. Slots will be filled on a first-come, first-served basis and Sponsors can choose their preferred day/time from the sponsorship slot provided (see program on page 3).

 **PRICELESS!**
THE COST? - Priceless! There's no other place, event or gathering where you will find the top reflective industry experts together in one place. Knowledge is power and you will find the knowledge to make you more successful at this special event!

Everyone is welcome at the 2018 event. Translators will be on site throughout the conference. — **Todos son bienvenidos en el evento de 2018. Los traductores estarán en el sitio durante la conferencia.**

BUT WAIT—THERE'S MORE!

Event host RIMA International is offering non-members a special **50% discount membership** opportunity available only to 2018 registered show attendees. As a new member, not only will you receive the member registration rate for the conference, but you will also spend 2018 as a member of the only worldwide trade association representing your industry. It's a great opportunity to see firsthand all that your association is doing for you and take an active roll in YOUR industry and YOUR professional future.

RIMA International
Reflective Insulation Manufacturers Association International

LEARN FROM TOP INDUSTRY EXPERTS FROM AROUND THE WORLD

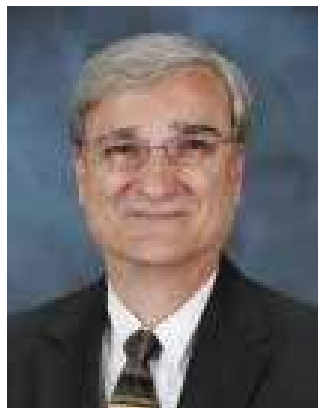

The I-RIM Conference is a technical, educational event bringing a collection of experts and professionals from around the world together to share the latest research, advances, uses and accomplishments in reflective technology. If you are in the reflective insulation, radiant barrier and/or interior radiation control coatings (IRCC) industries, you must attend this event.

Knowledge is power, and a powerful knowledge of your industry is key to long-term professional success. Too many think a basic understanding is sufficient; but it will not sustain your business over time or help build credibility in reflective technology. A little misinformation can go a long way in damaging an industry so make sure you are an expert in your field. Invest in yourself and your future while you meet and network with the most knowledgeable professionals in the world.

Wednesday Featured Speaker :

William A. Miller PhD

Oak Ridge National Laboratory

Presenting:

Zero Energy Building

Thursday's Featured Speaker :

Jan Kosny PhD

Fraunhofer Institute

Presenting:

Numerical and Experimental Analysis of Thermal Performance of Residential Attics Containing Aerogel-based Radiant Barrier Systems
