Registration Deadline Approaching for I-RIM Conference 2023 Rome

The 2023 International Reflective Insulation Manufacturers Conference (I-RIM Conference) will be held 23-24 May at the Le Meridien Visconti Hotel in Rome, Italy – and it will be here before you know it! Advance registration discounts are available until 15 April, so now is the time to register and secure that discount.

The program has something for everyone who wants to learn from the best of the best and have the opportunity to network and build your professional resource list. There is no other conference that brings all these reflective industry experts together for one special event. If this is your career, you need to be here.

WANT TO PRESENT YOUR PRODUCT/SERVICE?

There are three sponsorship opportunities that put you right on the conference program. Check out full details on our Platinum, Gold and Silver sponsorships with the link below. There will be two special table top exhibit opportunities on Wednesday during the cocktail reception and Thursday during an extended luncheon. Exhibitor registration includes two full conference registrations in addition to your reserved display area.

REGISTER BY APRIL 15 AND SAVE!

The registrations have been coming in and seats are filling, so don't delay. Registering early is quick and easy. There are online registration forms for both attendees and exhibitors. These are separate forms so be sure to select the correct option from the page link below.

READY FOR FULL DETAILS?

You can find the complete conference program, session descriptions, speaker bios, hotel room block links, exhibitor and attendee brochures and online registration forms at <https://rimainternational.org/i-rim-conference/i-rim-conference-rome-italy/> . Rooms are booking quickly so secure your space at the only worldwide reflective industry conference today!

We'll see you in Rome!

(The Reflective Insulation Manufacturer's Association International is a group of dedicated people working together to propagate the knowledge and use of reflective insulations and radiant barriers. RIMA-I has been the major force in establishing fair ASTM standards for testing and installation procedures. RIMA-I welcomes all who are interested in promoting and directing the growth of the industry. For more information about membership or the industry, please contact Executive Director Mary Edmondson at 800/279-4123 or visit us on our website at www.rimainternational.org.)
